Profile

Creative web developer with a focus on front end and a passion for learning new technologies. I enjoy solving complex technical problems while implementing industry standard practices to produce fluid, functional and responsive products that help solve a variety of problems.

Experience

FRONT END DEVELOPER, REPZIO – 2015-PRESENT

While working at RepZio I've created, shipped and maintained large e-commerce web apps for numerous clients. My team and I built a custom e-commerce platform with a fully featured CMS from the ground up that integrates with the existing back end infrastructure to produce both theme based and custom UI solutions.

WEB DEVELOPER, FREELANCE – 2014-2015

During this time I worked with several local business to enhance their online presence and deliver responsive/modern websites to their customers.

Skills

As a front end developer I have a strong understanding of javascript, html and css. Below is a list of some key skills that I use on a daily basis;

- Javascript (ES6)
- jQuery
- HTML5

- SCSS/CSS3
- Gulp (various build tools)
- Git

- Photoshop / Sketch
- Responsive Design
- Cross-browser compatibility

Education

Front Range Community College – A.A. degree
Self taught developer through multiple online sources

Tech Summary
